Projects

A.L.F.R.E.D | **Visual Storage Intelligence** | visualstorageintelligence.com/ai-hackathon-finals/
1st place win in Visual Storage Intelligence's 1st Annual Ai Hackathon on 02, 22, 2020. Team Ai solution automated what is currently a time consuming manual report that goes out weekly to Visual Storage Intelligence clients.
- Created the design of the front end with Virtual Storage Intelligence current design in mind and built completely using jQuery, Bootstrap, HTML, CSS.
- Added the automated emailing system using Nodemailer, Node.js, & Express.js. Lastly, designed and built the email template that was used to send reports to clients.

Sentinel | github.com/EmirVelazquez/sentinel
A React Native mobile app built for providing smart tracking in the power of a user's hands. It provides a use case for not just normal people, but businesses as well due to the potential of tracking company assets such as company vehicles driven by employees.
- Designed the app by incorporating design thinking methodology.
- Worked on building the complete front end top to bottom, by learning React Native within a week's worth of time, along with many more React Native special NPM packages.
- Assisted teammate with the geolocation and also used Google Maps API for the map service, while delegating issues of importance for the front end and coaching a different teammate.

Shelve It | github.com/1Fungi99/Shelve-It | ancient-beach-76628.herokuapp.com/
A storytelling platform for amateur authors and eager readers. It consists of a digital library and the ability to search for a book using Google API. For authors, it's a free online writing site that provides the tools to publish their work.
- Built the backend with MySQL and Node.js, and wrote all of the CRUD operations.
- Learned a new tool called Quill.js to use a built-in word editor and display the masterpieces how they were written.

Experience

Premises Technician | *AT&T* | Dallas, Texas | June 2015 - September 2019
Repaired and installed telecom equipment for residential and business customers. Utilized critical thinking to solve problems as quickly as possible. Took advantage of interpersonal skills to handle daily face-to-face interactions.

Bank Teller | Bank of America | Dallas, Texas | January 2014 - July 2014
Handled bank transactions in a face to face environment with customers. Looked for opportunities to better serve customer needs and introduce customers to personal bankers. Simultaneously handle multiple responsibilities.

Education

Full Stack Web Development Certificate: Southern Methodist University | University Park, Texas | 2019 - 2020
Bachelor of Science in Integrative Studies: University of North Texas | Denton, Texas | (2012 - 2013) 2018 - Present
Associates in Arts: Brookhaven College: Farmers Branch, Texas | 2010 - 2012
